

Poison-Free® Wasp & Hornet Killer: Model M604

1. Shake can upside for 15 seconds before each use.
2. If you are dealing with wasps, stand at a safe distance from the nest with back facing wind.
3. Hold can upright and point toward nest opening while spraying.
4. Spray until nest is saturated.
5. Wait a minimum of 48 hours before removing nest.
6. If necessary, repeat these steps.
